Low-Medium Risk Disclaimer

This portfolio has relatively low equity exposure, resulting in relatively low volatility compared to higher risk portfolios. Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks. The portfolio is exposed to default and interest rate risks. Therefore, it is suitable for medium term investment horizons. The expected potential long term investment returns are lower over the medium to long term than higher risk portfolios.

TER Disclaimer

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's.

Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER.

Effective Annual Cost ("EAC")

Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.

The TER and Transaction Costs cannot be determined accurately because of the short life span of the Fund. Calculations are based on actual data where possible and best estimates where actual data is not available. The TER and Transaction cost were calculated based upon figures for the past Financial Year ended 31 August 2017.
