

Fund Mandate

The Atlantic Enhanced Income BCI Fund is an actively managed income-producing fund, which seeks to provide income levels in excess of that provided by money market funds, while at the same time providing moderate capital growth by careful risk-constrained investment into securities offering good trading opportunities. By actively allocating and diversifying between various interest-bearing asset classes and listed property, total returns are also maximized. The fund will comply with regulations governing retirement funds.

Investment Objective

The Atlantic BCI Income Fund is a specialist income portfolio that seeks to maximize income and preserve capital for investors. The investment objective of the portfolio is to maximise the current level of income within the restrictions set out in the investment policy, while providing high stability of capital. The portfolio will aim to achieve performance returns in excess of money market yield and current account yields.

Risk Profile

This fund is suited for investors looking for a short to medium term parking place for asset and require a higher return than cash and money market funds while at the same time require a high degree of capital stability. This portfolio has low or no equity exposure, resulting in far less volatility than more aggressive mandated portfolios and in turn the probability of a long-term capital loss is much less likely. However, expected potential long term investment returns could be lower over the medium to long term. Where the asset allocation contained in this MDD reflect offshore exposure, the portfolio is exposed to currency risks. The portfolio is exposed to default and interest rate risks. Therefore, it is suitable for short to medium term investment horizons.

Information and disclosures

* Total Expense Ratio (TER)

A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's.

Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 August 2017, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 September 2017.

FAIS Conflict of Interest Disclosure

Please note that your financial advisor may be a related party to Atlantic and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instance portfolios invest in other portfolios which forms part of the BCI Schemes. These investments will be detailed in this document, as applicable.
