Highest Monthly Return	12.48%
Lowest Monthly Return	-9.06%
Positive Months	18
Negative Months	17

Risk Rating

1 2 3 4 **5**

High Risk

This portfolio holds more equity exposure than any other risk-profiled portfolio and therefore tends to carry higher volatility due to high exposure to equity markets. Expected potential long-term returns could be higher than for other risk profiles, which means that potential losses of capital is higher. Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks. Therefore, it is suitable for long-term investment horizons.

Investment Objective

The Autus BCI Global Equity Feeder Fund is a global equity portfolio that seeks to achieve high long-term capital growth in hard currency terms.

Investment Universe

The Autus BCI Global Equity Feeder Fund's objective is to provide capital growth over the long term. The portfolio will, apart from assets in liquid form, invest solely in the participatory interests of the Autus Global Equity Fund, established under the Sanlam Universal Funds plc, Ireland. The underlying portfolio invests primarily in equity securities as well as participatory interests of underlying portfolios of collective investment schemes or other similar schemes with similar objectives.

Investor Profile

The fund is suitable for South African investors who:

- Look to build and preserve wealth in international terms.
- Seek 100% exposure to hard currency markets.
- Seek 100% exposure to shares listed in the US or European equity markets.

Performance Table

Annualised	1 Year	3 Years	5 Years	7 Years	Since Inception
Autus BCI Global Equity FF A	11.65%				6.94%
Benchmark	17.36%	8.19%	10.70%	8.84%	9.03%
CPI	4.37%	5.71%	5.48%	5.56%	5.67%

Annualised return is the weighted average compound growth rate over the period measured.

Performance (Net of Fees)

Asset Allocation [Jan 2018]

Offshore Equity	82.9%
Offshore Cash	10.7%
SA Cash	5.0%
Offshore Property	1.4%

See-through Equity Holdings

Vanguard S&P500 ETF	3.9%
Vanguard European ETF	3.8%
Amazon	3.8%
Alibaba	3.4%
Microsoft	3.2%
Facebook	2.7%
Tencent	2.7%
iShares Asia 50 ETF	2.5%
Alphabet	2.5%
Mastercard	2.5%

Risks

Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Certain investments - including futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors.

Total Expense Ratio (TER)

Total Expense Ratio, expressed as a percentage of the fund, is a measure of the actual expenses incurred by the fund over the past financial year and is not an indication of the current fees charged to manage the fund. The TER includes the annual management fees, performance related fees (if any) as well as audit fees, trustee fees and the VAT payable on these components. It also includes the same for any underlying funds the fund may be invested in.

A higher TER does not necessarily imply a poor net return, in the same way that a low TER does not imply a good net return. The costs associated with managing a unit trust may vary from one year to the next, hence the reported TER at a given point in time may not be an accurate indication of future TERs.

Effective Annual Cost: Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.

Transaction Cost (TC)

Transaction cost expressed as a percentage of the fund, is the total cost incurred in dealing in the underlying assets of the fund, which includes buys and sells in order to change portfolio positioning or to facilitate cash flow into or out of the fund. Incurring these costs is an inevitable part of managing a unit trust portfolio. The level of such costs over any particular period should be interpreted in the context of factors such as financial market events and volatility over the same period, the style of the investment manager, cash flow profile of the fund and the type of fund. E.g. dealing costs for money market or income funds are typically materially lower than for equity funds.

Total Investment Charge (TIC)

The Total Investment Charge, expressed as a percentage of the fund, relates to all investment costs of the fund. It is shown as the sum of the TER and TC.

With the exception of money market funds, all unit trust returns are quoted net of TIC, therefore these expenses should not be deducted again from published returns. Fund performance can therefore be assessed on a basis which already takes into account relative differences in TER and TC.

The TER and Transaction Cost calculations are based upon the portfolio's direct costs for the financial year ended 31 August 2017, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, which is 31 December 2017.

Total Expense Ratio (TER)	1.99%
Performance fees included in the TER	0.00%
Transaction Costs	0.31%
Total Investment Charge	2.30%

FAIS CONFLICT OF INTEREST DISCLOSURE

Please note that your financial advisor may be a related party to the co-naming partner and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees, if applicable. In some instances portfolios invest in other portfolios which form part of the BCI Scheme. These investments will be detailed in this document, if applicable. Additional information, including application forms, annual or quarterly reports can be obtained from BCI, free of charge or can be accessed on our website www.bcis.co.za. Valuation takes place daily and prices can be viewed on our website (www.bcis.co.za) or in the daily newspaper. Actual annual performance figures are available to existing investors on request. Upon request the Manager will provide the investor with portfolio quarterly investment holdings reports.

DISCLAIMER

Boutique Collective Investments (RF) (Pty) Ltd ("BCI") is a registered Manager of the Boutique Collective Investments Scheme, approved in terms of the Collective Investments Schemes Control Act, No 45 of 2002 and is a full member of the Association for Savings and Investment SA. Collective Investment Schemes in securities are generally medium to long term investments. The value of participatory interests may go up or down and past performance is not necessarily an indication of future performance. The Manager does not guarantee the capital or the return of a portfolio. Collective Investments are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees, charges and maximum commissions is available on request. BCI reserves the right to close the portfolio to new investors and reopen certain portfolio from time to time in order to manage them more efficiently. Additional information, including application forms, annual or quarterly reports can be obtained from BCI, free of charge. Performance figures quoted for the portfolio are from Morningstar, as at the date of this minimum disclosure document for a lump sum investment, using NAV-NAV with income reinvested and do not take any upfront manager's charge into account. Income distributions are declared on the ex-dividend date. Actual investment performance will differ based on the initial fees charge applicable, the actual investment date, the date of reinvestment and dividend withholding tax. Investments in foreign securities may include additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Boutique Collective Investments (RF) Pty Ltd retains full legal responsibility for the third party named portfolio. Although reasonable steps have been taken to ensure the validity and accuracy of the information in this document, BCI does not accept any responsibility for any claim, damages, loss or expense, however it arises, out of or in connection with the information in this document, whether by a client, investor or intermediary. This document should not be seen as an offer to purchase any specific product and is not to be construed as advice or guidance in any form whatsoever. Investors are encouraged to obtain independent professional investment and taxation advice before investing with or in any of BCI/the Manager's products. A feeder fund is a portfolio that invests in a single portfolio of collective investment schemes, which levies its own charges and which could result in a higher fee structure for the feeder fund.
