INVESTMENT OBJECTIVE

The Colourfield BCI Equity Fund is a specialist equity portfolio having the primary objective of generating high capital growth

INVESTMENT UNIVERSE

The portfolio having the primary objective of generating high capital growth from the following key dimensions of expected returns: market equity premium, security size, relative price and expected profitability. The portfolio's investment universe consists of equity securities, preference shares, property shares and property related securities listed on exchanges, money market instruments and assets in liquid form. The portfolio's equity exposure will always exceed 80% of its net asset value. The portfolio may invest in participatory interests and other forms of participation in portfolios of collective investment schemes, registered in South Africa and other similar schemes operated in territories with a regulatory environment which is to the satisfaction of the manager and trustee of a sufficient standard to provide investor protection at least equivalent to that in South Africa and which is consistent with the portfolio's primary objective. The portfolio may from time to time invest in listed and unlisted financial instruments, in accordance with the provisions of the Act, and the Regulations thereto, as amended from time to time, in order to achieve the portfolio's investment objective. The manager may include the following unlisted financial instruments: forward currency, interest rate and exchange rate swap transactions for efficient portfolio management purposes.

RISK PROFILE

High Risk

- This portfolio has a higher exposure to equities than any other risk profiled portfolio and therefore tend to carry higher volatility due to high exposure to equity markets.
- Expected potential long term returns are high, but the risk of potential capital losses is high as well, especially over shorter periods.
- Where the asset allocation contained in this MDD reflect offshore exposure, the portfolio is exposed to currency risks
- Therefore, it is suitable for long term investment horizons.

INFORMATION AND DISCLOSURES

Risks

Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors.

*** Total Expense Ratio (TER)**

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 August 2017, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 December 2017.

Effective Annual Cost: Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.
