

**INVESTMENT OBJECTIVE**

The portfolio objective is to secure high long-term capital growth.

**INVESTMENT UNIVERSE**

The BCI Best Blend Global Equity Fund is a multi-managed global equity portfolio investing across developed and emerging markets with the aim to generate high long term capital growth. The portfolio's exposure to assets outside of South Africa will be in excess of 80% of the portfolio's net asset value and the portfolio's exposure to equity securities will always exceed 80% of the portfolio's net asset value. The investments normally to be included in the portfolio may comprise a combination of assets in liquid form, money market instruments, interest bearing instruments, equity securities, property securities, preference shares, convertible equities and non-equity securities as well as participatory interests. The portfolio may from time to time invest in listed and unlisted financial instruments.

**RISK PROFILE**

**High Risk**

- This portfolio has a higher exposure to equities than any other risk profiled portfolio and therefore tends to carry higher volatility due to high exposure to equity markets.
- Expected potential long term returns are high, but the risk of potential capital losses is high as well, especially over shorter periods.
- Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks.
- Therefore, it is suitable for long term investment horizons.

**INFORMATION AND DISCLOSURES**

**Risks**

Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors.

**\* Total Expense Ratio (TER)**

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 August 2018, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 September 2018.

**Effective Annual Cost:**

Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at [www.bcis.co.za](http://www.bcis.co.za).

**#Monthly Fixed Admin Fee:** R10 excl. VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied.

**Fund**

* Total Expense Ratio (TER)	Transactional Cost (TC)	Total Investment Charge (TER & TC)
2.53%	0.11%	2.64%
Of the value of the Fund was incurred as expenses relating to the administration of the Fund.	Of the value of the Fund was incurred as costs relating to the buying and selling of the assets underlying the Fund.	Of the value of the Fund was incurred as costs relating to the investment of the Fund.
