## Investment Objectives

The objective of the Investec Wealth & Investment BCI Balanced Fund of Funds is to achieve long term growth of capital and income by investing in a diversified range of assets. These include equities, bonds, property and cash, whilst aiming to outperform the benchmark with lower than benchmark risk over three year rolling periods. The portfolio is Regulation 28 compliant and FSCA approved.

## Investment Philosophy

The Investec Wealth & Investment BCI Balanced Fund of Funds is a multi-asset portfolio that leverages off the investment team's expertise in asset allocation and manager selection. Active asset allocation, which is based on our in-house strategic and tactical views, is combined with "bottom-up" manager selection to create an optimal blend of asset classes and funds, designed to generate superior risk-adjusted returns over the long term.

## Portfolio Performance (Class A, ZAR, Net of fees)

The chart represents the returns generated by a R100 investment made at inception. Investment performance is for illustrative purposes only and calculated by taking actual initial fees and ongoing fees into account for amount shown with income reinvested on reinvestment date.

INVESTMENTS

Investec  
Wealth & Investment

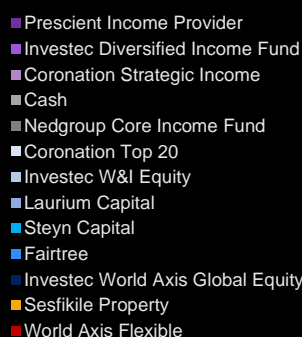

## Moderate Risk

- This portfolio has a balanced exposure to various asset classes. It has more equity exposure than a low risk portfolio but less than a high-risk portfolio. In turn the expected volatility is higher than a low risk portfolio, but less than a high-risk portfolio
- Where the asset allocation contained in this MDD reflect offshore exposure, the portfolio is exposed to currency risks
- The portfolio is exposed to equity as well as default and interest rate risks
- The portfolio is suitable for medium term investment horizons
- The probability of losses is higher than that of a low risk portfolio, but less than a high-risk portfolio and moderate long term investment returns are expected.

### **FAIS Conflict of Interest**

Please note that your financial advisor may be a related party to the co-naming partner and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instances portfolios invest in other portfolios which form part of the BCI Scheme.

### **Glossary Summary**

**Annualised return:** Annualised return is the average return per year over the period.

**The effective annual cost (EAC):** Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at [www.bcis.co.za](http://www.bcis.co.za).

**Method of calculation:** Unit prices are calculated on a net asset value basis by determining the total market value of all assets in the fund, including any income accruals, less any permissible deductions. The following costs may be deducted from the portfolio: brokerage fees, security services tax, auditor's fees, bank charges, trustee and custodian fees and the annual management fees of the manager.

**MDD:** Minimum Disclosure Document

**NAV:** The Net Asset Value (NAV) represents the value of the assets of a fund less its liabilities.

**Total expense ratio (TER):** The current TER cannot be regarded as an indication of future TER's. Includes the annual management fee, performance fee and administrative costs but excludes portfolio transaction costs (except in the case of an entry or exit charge paid by a fund when buying or selling units in another fund) expressed as a percentage of the average daily value of the Fund calculated over a rolling three years (or since inception where applicable) and annualised to the most recently completed quarter. Underlying manager performance fees calculated based on that managers fee schedule, please see the underlying managers MDD or KIID for more information regarding their performance fee.

**Transaction cost (TC):** Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER Calculations are based on actual data where possible and best estimates where actual data is not available.

**Total investment charge (TIC):** This is the sum of the TER and TC.

### **Specific Fund Risks**

**Concentration risk:** Investments may be primarily concentrated in specific areas (e.g. countries/geographical regions and/or industry sectors), in terms of investment style (e.g. income or growth), in individual holdings and/or in a number of other ways. This may mean the value of the Fund may decrease whilst more broadly invested funds might grow.

**Country and political risk:** Investments or underlying components of your Investments may be affected by their link or relationship to specific countries which could be exposed to political or economic events affecting companies, interest rates or currencies.

**Currency exchange risk:** Changes in the relative values of different currencies may adversely affect the value of the Fund's investments and any related income.

**Default risk:** There is a risk that the issuers of fixed income investments (e.g. bonds) may not be able to meet interest payments nor repay the money they have borrowed. The worse the credit quality of the issuer, the greater the risk of default and therefore investment loss.

**Developing market risk:** Some of the countries in which the Fund invests may have less developed legal, political, economic and/or other systems. These markets carry a higher risk of financial loss than those in countries generally regarded as being more developed.

**Equity investment risk:** The value of equities and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default, the owners of their equity rank last in terms of any financial payment from that company.

**Interest rate risk:** The value of fixed income investments (e.g. bonds) tends to decrease when interest rates and/or inflation rises.

**Liquidity risk:** The Risk that a given security or asset cannot be traded quickly within in the market to prevent a loss (or make the required profit).

**Macroeconomic risk:** Refers to the risk that conditions such as exchange rates, growth rate, gross domestic product, inflation, price levels, national income, changes in employment, government regulation or political stability, will affect an investment usually in a foreign country.

**Multi-asset investment risk:** The Fund is subject to possible financial losses in multiple markets and may underperform more focused funds.

**Return on capital:** Neither capital preservation nor returns are guaranteed.

**Settlement risk:** The risk that a counterparty does not deliver a security or its value in cash as per agreement when the security was traded after the other counterparty or counterparties have already delivered security or cash value as per the trade agreement.

**Taxation risk:** The tax treatment of any Investment is determined by the specific circumstance of each client. Taxation may change during the lifetime of an Investment. This may result in unanticipated tax liabilities. You should obtain tax advice in order to be aware of the potential liability before making an Investment. If your circumstances change or you are uncertain of how an Investment might affect your own tax position you should seek professional advice.

**Third-party operational risk:** The Fund's operations depend on third parties. Investors in the Fund may suffer disruption or financial loss in the event of third-party operational failure.

---

**Disclaimer:** Boutique Collective investment schemes in securities (CISs) are generally medium to long term investments and the manager gives no guarantee with respect to the capital or the return of the Fund. CISs are traded at ruling prices and can engage in borrowing, up to 10% of fund net asset value to bridge insufficient liquidity, and scrip lending. A schedule of charges, fees and advisor fees is available on request from the Manager, Investec Fund Managers SA (RF) (Pty) Ltd. Additional advisor fees may be paid and if so, are subject to the relevant FAIS disclosure requirements. Performance shown is that of the fund and individual investor performance may differ as a result of initial fees, actual investment date, date of any subsequent reinvestment and any dividend withholding tax and past performance is not necessarily a guide to the future. Performance figures above are based on lump sum investments, using NAV to NAV figures net of fees with gross income reinvested, in South African Rands. The value of participatory interests or the investment may go up or down. Different classes of units apply to the fund and the information presented is for the most expensive class. Fund valuation occurs at 08h00 (T+1) and transaction cut-off time is 14h00 SA time each business day. This fund may be closed in order to be managed in accordance with the mandate. Past performance is not necessarily a guide to future performance. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. A higher Total Expense Ratio (TER) does not necessarily imply a poor return, nor does a low TER imply a good return. Where funds invest in the participatory interests of foreign collective investment schemes these may levy additional charges which are included in the relevant TER. The ratio does not include transaction costs. The current TER cannot be regarded as an indication of the future TERs. Fund prices are published each business day in selected media. A fund of funds is a portfolio that invests in portfolios of collective investment schemes that levy their own charges, which could result in a higher fee structure. Additional information on the fund, including information on the EAC can be obtained, free of charge, at <https://www.investec.com/products-and-services/investing/unit-trusts.html?ad>. The Manager, PO Box 1655, Cape Town, 8000, Tel: 0860 500 100 is registered under the CIS Control Act. The scheme trustee is FirstRand Bank Limited, PO Box 7713, Johannesburg, 2000, Tel: (011) 282 1808. All information provided is product related, and is not intended to address the circumstances of any Financial Service Provider's (FSP) clients. In terms of the Financial Advisory and Intermediary Services Act, FSPs should not provide advice to investors without appropriate risk analysis and after a thorough examination of a particular client's financial situation. While the Manager appointed Investec Wealth and Investment Management (Pty) Ltd (IWIM) 2013/001592/07, as its authorised agent to solicit investment and to manage the co-named fund, the Manager retains full legal responsibility for the co-named fund. The relationship between the Manager and IWIM is governed by the CIS Control Act, the scheme deed, and formal written agreements. IWIM is an authorised financial services provider no. 44897. This is the copyright of Investec and its contents may not be re-used without Investec's prior permission.

**Investment Manager:** Investec Wealth & Investment Management (Pty) Ltd is an authorised Financial Service Provider FSP 44897. Additional information, including application forms, annual or quarterly reports can be obtained from BCI, free of charge or can be accessed on the BCI website [www.bcis.co.za](http://www.bcis.co.za). Actual annual performance figures are available to existing investors on request. Upon request the Manager will provide the investor with portfolio quarterly investment holdings reports.
