## Investment Objective

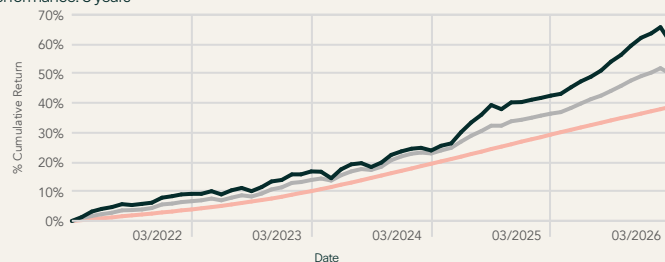

The Otto1890 BCI Flexible Income Fund aims to provide high levels of income, while preserving capital.

## Investment Approach

The portfolio is an actively managed, flexible income portfolio that effectively makes asset allocation decisions across high yielding asset classes such as preference shares, non-equity securities, fixed interest instruments (including, but not limited to, bonds, corporate bonds, inflation linked bonds, convertible bonds, cash deposits and money market instruments) and assets in liquid form. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may also include unlisted forward currency, interest rate and exchange rate swap transactions.
