

Investment Objective

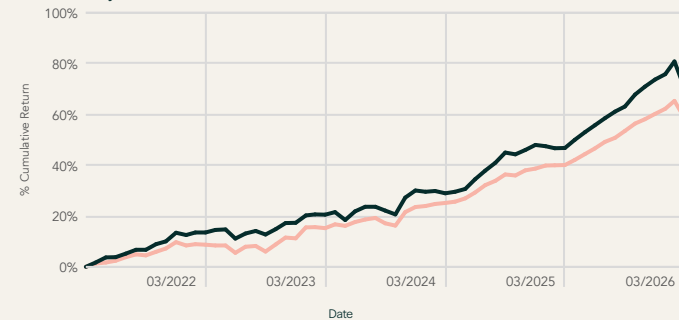

The Otto1890 BCI Stable Fund is a cautious managed portfolio with the investment objective to achieve above real inflation beating total returns by way of delivering relatively high income with a measure of capital growth over the medium to long term.

Investment Approach

In order to achieve this objective the investments to be acquired for the portfolio will include listed property related securities, equity securities, preference shares, non-equity securities, fixed interest instruments (including, but not limited to, bonds, corporate bonds, inflation linked bonds, convertible bonds, cash deposits and money market instruments) and assets in liquid form. To provide a level of capital protection, the portfolio's equity exposure shall be limited to 40% of the portfolio's net asset value. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may also include unlisted forward currency, interest rate and exchange rate swap transactions.
