Investment Objective

The Southern Charter BCI Defensive Fund of Funds is a cautious managed fund of funds. The primary investment objective of the portfolio is to provide the investor with a high level of income and stable capital growth. The Fund aims to provide investors with capital growth above inflation over a rolling two year period by investing in a combination of asset classes including local and international equities, fixed interest, property and cash. The Fund looks to provide capital stability and is ideal for investors with a shorter investment horizon, who seek capital growth and who are within 5 years of retirement. The fund is Regulation 28 compliant.

Strategy

The Fund is actively managed with a value bias. By focusing on macro themes, the Fund looks to exploit valuation discrepancies in asset classes when they occur. The allocation to equities will range from 0% to 40%, depending on economic conditions with neutral weighting of 20%. The balance is allocated to the other asset classes. The allocation to assets other than equities, aims to reduce the risk of capital loss in the portfolio.
