## STONEHAGE FLEMING FR WORLDWIDE MULTI-ASSET FLEXIBLE FUND (A)

### INVESTMENT OBJECTIVE

The Stonehage Fleming FR Worldwide Multi-Asset Flexible Fund aims to provide long term investors with high long term total returns by actively managing the portfolio's underlying holdings and asset allocation.

### INVESTMENT POLICY

The strategic emphasis is to identify stocks which are trading away from long term intrinsic value. The portfolio's investment universe may include global and local equity securities, government bonds, corporate bonds and inflation linked bonds, debentures, property securities, property related securities, interest bearing securities, preference shares, money market instruments and assets in liquid form. The portfolio's equity exposure will typically constitute 70% or more of its asset value whilst never reducing below 40% of the total portfolio value. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may include the following unlisted financial instruments: forward currency swaps, interest rate and exchange rate swap transactions for efficient portfolio management purposes. The manager may include the following unlisted financial instruments: forward currency swaps, interest rate and exchange rate swap transactions for efficient portfolio management purposes.

### PERFORMANCE (Net of Fees)

### RISK PROFILE

#### Moderate - High Risk

- This portfolio holds more equity exposure than a medium risk portfolio but less than a high-risk portfolio. In turn the expected volatility is higher than a medium risk portfolio, but less than a high-risk portfolio. The probability of losses is higher than that of a medium risk portfolio, but less than a high-risk portfolio and the expected potential long-term investment returns could therefore be higher than a medium risk portfolio.
- Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks.
- The portfolio is exposed to equity as well as default and interest rate risks.
- Therefore, it is suitable for medium to long-term investment horizons.
- The portfolio may have a high exposure to derivative instruments, which may carry additional risks

## INFORMATION AND DISCLOSURES

### Risks

Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

### \* Total Expense Ratio (TER)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2025, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 March 2026.

### Effective Annual Cost:

Fundrock Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at [www.fundrock.co.za](http://www.fundrock.co.za). FR calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period.

**#Monthly Fixed Admin Fee:** From 1 June 2026, the monthly minimum administration fee per investment account for investors who do not transact online will be: More than R100 000 – no minimum administration fee; R10 000 to R100 000 – R15 per month (excluding VAT); Less than R10 000 – R25 per month (excluding VAT).

### Total Investment Charges

| * Total Expense Ratio (TER)                                                                   | Transactional Cost (TC)                                                                                              | Total Investment Charge (TER & TC)                                                     |
|-----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| 1.58%                                                                                         | 0.11%                                                                                                                | 1.69%                                                                                  |
| Of the value of the Fund was incurred as expenses relating to the administration of the Fund. | Of the value of the Fund was incurred as costs relating to the buying and selling of the assets underlying the Fund. | Of the value of the Fund was incurred as costs relating to the investment of the Fund. |

### FAIS Conflict of Interest Disclosure

Please note that your financial advisor may be a related party to the co-naming partner and/or FR. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to FR, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instances portfolios invest in other portfolios which form part of the FR Scheme. These investments will be detailed in this document, as applicable.

### Investment Manager
